CATWOMAN

Image Sizes: 30"x24", 40"x32", 60"x48"

Publish Date: APRIL 2018

When people ask who my favorite super hero is, I often have a hard time answering them. I am drawn to many comic book characters but one alluring cat burglar always seems to surface to the top of my mind... Catwoman; I am completely enamored with this anti-heroine and most people are shocked by that. I am not sure why, she is one of the most progressive, beautiful, and well-rounded characters in all of comics - not to mention that she has been a part of the Batman storyline since Batman #1, right beside The Joker.

HIGHLIGHTS

- Catwoman's pet cat Isis is looming in the shadows, curious as ever to see what Selina is up to.
- Highly skilled with her specialized whip, she is capable of astonishing roughage.
- It is twilight in Gotham, and the light blues of the skyline have begun to give way to the darker hues of blue and purple of the night sky; the purrrfect time of the day for a cat to begin her prowl.
